SUMMARY

Frontend Developer with 2+ years of commercial experience in React, TypeScript, and REST API integrations, now building AI agents and workflow automations with Claude Code, n8n, and MCP. I break messy processes into clear steps, verify that results actually work, and document solutions for reuse; a pedagogical background helps me explain complex things simply.

EXPERIENCE

AI Automation Engineer
08/2026 – Present

Independent projects

- Build AI agents and workflow automations with n8n, Claude Code, and MCP connectors.
- Integrate third-party services via REST APIs and webhooks; automate Google Workspace (Calendar, Gmail, Drive, Sheets).

Frontend Developer
06/2025 – Present

VALKO.PRO · Hybrid, Ukraine

- Delivered commercial websites end-to-end, from Figma designs to production, with React, JavaScript, SCSS, and WordPress.
- Improved page load time and bounce rate (tracked in Google Analytics) with image optimization, lazy loading, and Gulp bundling.
- Built reusable UI components (sliders, modals, animated sections) that sped up delivery of later projects.

Frontend Developer
07/2024 – 02/2025

IT product company (NDA) · Office

- Built reusable UI components used across multiple product pages, reducing duplicated code.
- Fixed layout shifts, re-renders, and cross-browser bugs in production using Chrome DevTools.
- Integrated REST endpoints with loading and error states; refactored legacy jQuery into modular ES6+.

PROJECTS

Clinic AI Agent · Claude Code, n8n, Telegram
AI agent that checks dental clinic records, flags unfinished treatment plans, and sends reports and doctor reminders to Telegram; expected to save 25–40 h of admin time in the first 3 months.

Tvoje Oslava · tvoje-oslava.cz · Next.js, React, Tailwind CSS
Website for a party studio and gift shop in Hořice, Czech Republic: online shop with cart and ordering, party programs, workshops, and an animated hero slider.

Dental Clinic Website · ronevich.com.ua · WordPress, SCSS, Gulp 04/2025 – 07/2025
Conversion-oriented marketing site from Figma to production with sliders, modals, and scroll animations; optimized assets and Core Web Vitals.

SKILLS

AI & Automation: Claude Code, Cursor, n8n, MCP connectors, REST APIs & webhooks, Google Workspace automation
Frontend: React, TypeScript, JavaScript, Redux Toolkit, Zustand, React Router, TanStack Query, Next.js (learning)
Web & Tools: HTML, CSS/SCSS, Tailwind CSS, Axios, Git/GitHub, Gulp, npm, Chrome DevTools, WordPress, Figma
Languages: Ukrainian (native), English (B1, actively improving)

EDUCATION & COURSES

National Pedagogical Dragomanov University · Teacher of Math, Economics & CS 2010 – 2015

React · Hillel IT School 2024

JavaScript Fundamentals · SoftServe Academy 2023

Claude Code Courses · online
