

CAREER OBJECTIVE

Motivated Front-end Developer with real experience in HTML, CSS, JavaScript, and foundational React skills. Eager to deepen knowledge of React and modern front-end technologies. Strong at debugging, optimizing code, and collaborating in teams. My goal is to build reliable, user-friendly software that drives team success.

WORK EXPERIENCE

IT Company (office-based)	Jul 2024 - May 2025
Developed responsive, pixel-perfect layouts from Figma. Maintained and optimized sites by fixing bugs, boosting performance, and adding interactive UI components. Parsed external data and collaborated with designers and backend developers. Tech stack: HTML, CSS, JavaScript (ES6+), jQuery, basic PHP, Git, npm, Chrome DevTools.	
Freelance Web Developer	Jan 2024 - May 2024
Independently developed web projects using React, Redux, and Material-UI. Effectively managed time to meet deadlines and found practical solutions to complex problems. Gained skills in web development and project management.	
Teacher of computer science and mathematics	Sep 2014 - May 2021
Comprehensive school of I-III degrees	

HARD SKILLS

- Languages: **JavaScript** - Good.
- Frontend: **HTML5, CSS3/ SCSS/ Styled components, Tailwind CSS, jQuery, Gulp** - Good.
- Frameworks/libraries: **React, React Router, Redux** - Basic.
- DataBase: **MySQL, MongoDB** - Basic.
- Version control: **GitHub** - Good.
- Data Fetching and APIs: **Axios/ REST API, Fetch** - Basic.
- Tools: **WebStorm, Visual Studio Code** - Good

SOFT SKILLS

Problem Solver: Uses critical thinking to resolve complex issues. **Adaptable Team Player:** Thrives in dynamic environments and collaborates well. **Detail-Oriented:** Focuses on accuracy in coding and problem-solving. **Continuous Learner:** Actively pursues personal and professional growth. **Initiative:** Proactively tackles issues and drives goal achievement.

PROJECT

Commercial project: Dental Clinic Website
Built a responsive website from Figma designs with interactive UI components. Optimized performance, ensured cross-browser compatibility, registered domain, configured hosting, and deployed the site using HTML, CSS, JavaScript, Gulp, and Git.
Freelance Project: Countries-App
Independently developed web projects using React, Redux, and Material-UI. Effectively managed time to meet deadlines and found practical solutions to complex problems. Gained skills in web development and project management.
